5100-59PP	RETAINER RING	2
6227-20	* O-RING	1
5 KEY	SHAFT KEY FOR DRIVE GEAR	1
9 KEY	KEY	1

*** When ordering new or exchange shaft-seal assemblies, the liquid being pumped, model number, and serial number of the pump must be given. (See metal name plate on pump for this information)**

NOTE:

While shaft-seal assembly parts may be ordered individually for pumps used with non-hazardous liquid, we strongly advise against attempting to make repairs in the field. Instead, new or exchange shaft-seal assemblies are available as noted.

We will not ship individual shaft-seal parts for pumps handling hazardous liquids such as LP-GAS or Anhydrous Ammonia within the U.S.A.
