

CE-Manufacturer's Declaration for pumps less motors

According to Annex II 1B of the Directive 2006/42/EC

Smith Precision Products Company declares the following:

Our product, D-series, E-series, SQ-series, MC/GC-series, MC-series, ATC-series, TC-series, and MCAT-series bare-shaft pumps, or bare-shaft pumps mounted on base plates with VC-series flexible drive couplings, less electric motor, complies as follows:

The Standards:

EN ISO 12100:2010 Safety of Machinery, EN809:1998 Pumps and pump units for liquids, EN12162:2001+A1:2009 Liquid pumps safety requirements, EN13463-1:2001 Non-electrical equipment for potentially explosive atmospheres, prEN13463-5:2000 Non-electrical equipment for potentially explosive atmospheres(protection by constructional safety, c)

The Directives:

Pressure Equipment Directive 2014/68/EU**, Machinery Directive 2006/42/EC, Equipment and protective systems intended for use in potentially explosive atmospheres (ATEX) 2014/34/EU.

Smith pumps for LP-GAS and related hydrocarbons and Liquid Carbon Dioxide also comply with the UL-51 Standard for Safety for Power Operated Pumps.

**Smith pumps are specifically excluded from the scope of 2014/68/EU and hence comply with the applicable provisions of this Directive

A Technical File, V1234X is lodged with TUV Anlagentechnik GmbH, Am Grauen Stein, D-51105, Koln, Germany.

The use of the above equipment must be in strict accordance with all user instructions that accompanies the product, information contained on all pump label plates, and all local and national codes of practice. The above must not be put into service until the machinery into which it is to be incorporated has been declared in conformity with the provisions of the Directive.
